ABOUT US

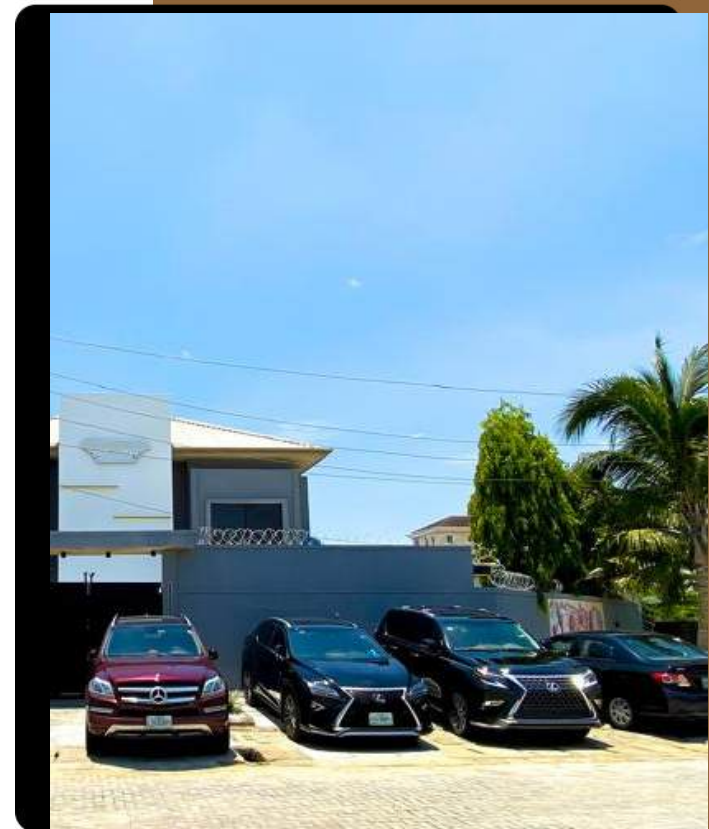

The Home of Medical-Grade Skincare and Aesthetics.

Skye Medical Aesthetics Center was founded on three main principles:

- Healthy living;
- Outstanding service; and
- Technology-driven solutions.

Our management and staff are committed to providing our patients with the safest and most effective beauty treatments, specially curated just for you.

Experts in the fields of Laser Skin Tightening, Botox, Korean Inspired Treatments, Dermal Fillers, Aesthetic Gynecology, PCL Threading, Derma-needling, Mesotherapy, Medical Hydra-Dermabrasion and Chemical Peels, we work together to provide the best personalized care to meet your Aesthetics needs.

OUR STORY

We'll Take Care of You!

Skye Medical Aesthetics Center offers unparalleled services with real results. Using cutting-edge technologies and the finest medical-grade products, every treatment is customized to your specific needs to help you reach your goals quickly and effectively.

We are committed to helping you look and feel your personal best.

Our highly professional staff, advanced technology and comforting atmosphere make Skye Medical Aesthetics Center the best choice for your beauty treatment needs.

GIFT VOUCHER

What a better way to show appreciation to a friend, business associate or loved one than a relaxing luxurious experience at our establishment.

FACIAL TREATMENTS

At Skye Medical Aesthetics Center, we pride ourselves in the quality of our Medical Grade Facials.

A Medical Grade Facial is a skin treatment that offers longer lasting results, as the nature of products used penetrates deeply into the skin, to encourage healthy skin that can regenerate naturally.

A regular facial is mostly used to relax and cleanse the skin, whereas a Medical Grade Facial is used to manage and treat certain skin imperfections and conditions. Medical Grade Facials are customized treatments and may involve the use of prescription-strength serums, creams and other topicals. We provide industry-leading and revolutionary Medical Grade Facial treatments, using the industries best products and the latest technology; Skye Medical Aesthetics Center will exceed your expectations.

Once our team determines which service is right for you, the treatment is completely personalized to fit your unique needs and ensure the best possible results.

FACIAL TREATMENTS

DERMAPLANING FACE LIFT

₦53,675.00

Exfoliate your skin with our Dermaplaning facial.

This unique treatment removes dead skin cells, resulting in healthier, brighter skin, using a 'surgical scalpel', one of our highly trained Aestheticians will gently shave the face, removing the topmost layer of dead skin cells along with vellus hair (peach fuzz).

There are many benefits that come along with Dermaplaning, these include:

- Removes dirt and oil accumulation;
- Helps minimize superficial acne scarring; and
- Diminish the look of fine lines.

This treatment can be used on all skin types.

Dermaplaning is a quick procedure which leaves you looking and feeling refreshed and renewed. You will also notice a difference in makeup application as products penetrate the skin deeper. We do recommend using an SPF after this treatment as your face will be highly susceptible to the Sun after each treatment. This treatment is inclusive of LED light therapy.

Skin type indications: blocked pores, rough texture, dull and sallow skin.

HYDRA-DERMABRASION

₦61,404.20

Hydra-Dermabrasion exfoliates dead skin cells and extracts impurities with a vacuum-based skin abrasion tip while simultaneously bathing the healthy underlying skin with active serums that cleanse deeply, exfoliate thoroughly, hydrate completely and provide residual antioxidant protection.

The exceptional effectiveness of this treatment is due to its use of formulated serums in combination with a vacuum-based skin abrasion tip.

The first step exfoliates superficial dead skin cells, followed by the vortex-peel, which offers the benefits of a peel without causing the skin to scale. The third step cleanses pores with a gentle vortex-suction, then the vortex-fusion treats the skin with a blend of antioxidants, hyaluronic acid, and peptides.

Lastly, nourishing products are applied for protection, along with LED light therapy.

Skin type indications: blocked pores, fine lines and wrinkles, rough texture, dull and sallow skin.

FACIAL TREATMENTS

HYDRA-DERMABRASION WITH DERMAPLANING

₹73,212.70

Hydra-Dermabrasion is a non-laser skin resurfacing treatment. It consists of a combination of cleansing, exfoliation, extraction, hydration and moisturizing serums with no downtime and no pain.

Dermaplaning consists of taking a scalpel to gently scrape off the top layer of dead skin and peach fuzz hair. It leaves the skin smooth and is perfect for smooth makeup application and brighter complexion. This treatment is inclusive of LED light therapy.

Skin type indications: wrinkles and fine lines, rough texture, dull and sallow skin..

HYDRA-DERMABRASION FOR PREGNANT WOMEN

₹85,021.2

Hydra-Dermabrasion exfoliates dead skin cells and extracts impurities with a vacuum-based skin abrasion tip while simultaneously bathing the healthy underlying skin with nourishing serums. These serums, suitable for use during pregnancy, cleanse deeply, exfoliate thoroughly, hydrate completely, and provide lasting antioxidant protection.

The exceptional effectiveness of this treatment is due to our skilful combination of products which are gentle enough to be used whilst pregnant, but effective enough to get the desired result.

The first step exfoliates superficial dead skin cells, followed by the vortex-peel that provides the rewards of a peel without subsequent scaling skin. The third step cleans out pores with a comfortable vortex-suction. Next, the Vortex-Fusion indulges the skin with a combination of antioxidants, hyaluronic acid, and peptides. Lastly, a protective application of nourishing products will be applied whilst under LED light. This treatment can be optimized with dermaplaning.

Skin type indications: blocked pores, fine lines and wrinkles, rough texture, dull and sallow skin.

PRE/ POST PEEL EXTRACTION

₹36,499

It is important to prep the skin before a chemical peel to avoid unwanted irritation, side effects, and to maximize the benefits of the treatment.

You should have an extraction done at least two weeks before your appointment. Proper skin preparation ensures smoother healing, better product penetration, and more radiant results.

This treatment is inclusive of LED light therapy and is recommended for deeper chemical peels.

FACIAL TREATMENTS

DEEP EXTRACTION FACIAL

₹96,829.7

This high impact treatment is specifically designed for oily skin, dilated pores, and excess sebum.

The Deep Extraction Face Lift purifies the epidermis, brightens dull complexions, decreases sebum production, tightens pores, and regulates oily skin and dilated pores. It combines a very light chemical peel with the nourishing effects of innovative hydra-dermabrasion technology.

This treatment has no social downtime and leaves congested, acne-prone skin looking clear and radiant. For enhanced results, it can be followed by a deeper chemical peel 2–4 weeks later.

The treatment includes LED light therapy and can be optimized with dermaplaning.

Skin type indications: breakout-prone skin, rough texture, dull or sallow skin.

SKINSENSE CERAMIDE FACIAL

₹123,499.40

This treatment is designed to deliver a deep boost of hydration, nourishment, and repair by combining thorough cleansing, gentle exfoliation, extractions, LED therapy, cooling massage tools, and customised serums.

Benefits include:

- Deeply cleanses & detoxifies;
- Boosts cell renewal;
- Clears pores & reduces congestion; and
- Hydrates & plumps.

Overall, this treatment revitalizes, rehydrates, brightens, and protects the skin while promoting a firmer, smoother, and healthier-looking complexion.

Skin type indication: Dry, sensitive, dull, or ageing skin.

SKINSENSE RESTORING FACIAL

₹127,783.66

The Pro Resilience Facial is a calming, barrier-repair treatment that nourishes, hydrates, and strengthens dry, sensitive, or irritated skin. With soothing, anti-inflammatory ingredients, it delivers immediate relief, boosts resilience, and promotes healthy cell renewal.

FACIAL TREATMENTS

SKINSENSE ANTI-AGING FACIAL

₱131,649.31

The Future Proof Facial is designed to deeply cleanse, gently resurface, hydrate, and protect the skin while incorporating lymphatic drainage massage. It targets signs of ageing and supports long-term skin health.

Benefits include:

- Deeply cleanses & detoxifies;
- Gently resurfaces;
- Hydrates & nourishes;
- Boosts collagen & firmness;
- Soothes & refreshes; and
- Protects for the future.

Skin type indications: Blocked pores, rough texture, dull or sallow skin.

MURAD ADVANCE VITAMIN C INFUSION TREATMENT

₱141,702.00

Murad Vitamin C Infusion Treatment is an antioxidant – rich treatment that reverses the appearance of skin aging caused by environmental damage.

Treatment can be combined with Dermaplaning and Hydra-dermabrasion, and it also includes LED light therapy.

Please note that Dermaplaning attracts an additional cost.

Murad Vitamin C infusion Treatment helps to treat:

- Fine Lines and wrinkles;
- Loss of skin firmness; and
- Pigmentation.

Skin type indication: dull and aging Skin.

FULL FACE LASER FACIAL COMBINED WITH DERMAPLANING AND HYDRA- DERMABRASION

₱198,382.80

Full Face Laser Hair Removal on the face is a non invasive medical procedure that uses a beam of light (a laser) to remove hair from the face. Laser hair removal can be done on other parts of the body too. The treatment is ideal for people who have a lot of facial hair and peach fuzz, and is commonly performed around the mouth, chin, and cheeks.

If you are a laser hair removal patient and choose not to shave your hair or need an extraction, Hydra-Dermabrasion combined with Dermaplaning before your laser treatment can be a great alternative. This way not only your facial hair is removed but also the top layers of the skin is exfoliated thoroughly.

Skin type indications: unwanted facial hair, blocked pores, fine lines and wrinkles, rough texture, dull and sallow skin.

FACIAL TREATMENTS

DEEP EXTRACTION FACIAL COMBINED WITH DERMANEEDLING

₱207,400.2

This combination therapy treats the skin from both the inside out and the outside in.

Hydra-Dermabrasion works from the outside in by providing a deep cleanse, extractions, a light peel, and a moisture infusion. This can be customized to treat conditions such as acne, sun damage, and premature aging.

Derma-Needling works from the inside out by invoking the wound healing cycle deep within the skin, encouraging the growth of fresh, healthy collagen. This improves acne scarring, lessens the appearance of enlarged pores, and softens fine lines. This treatment is inclusive of LED light therapy. It is truly a match made in skincare heaven, delivering incredible results while being easy to schedule with minimal downtime and budget consciousness.

The treatment includes LED light therapy and can be optimized with dermaplaning.

For impeccable results, this treatment may be followed by a deeper chemical peel or vampire facial 4 weeks later if necessary.

Skin type indications: wrinkles and fine lines, rough texture, dull and sallow skin.

HYDRADERMABRASION COMBINED WITH DERMANEEDLING

₱197,524

Dermaplaning and Derma-Needling are effective standalone treatments, but when combined, they can produce optimal results.

Dermaplaning before Derma-Needling allows topical products to penetrate significantly deeper into the skin layers, helping the patient achieve the most desirable outcome. This treatment is inclusive of LED light therapy. Together, these procedures are ideal for treating uneven skin tone and texture, large pores, fine lines, unwanted facial hair, and acne scars.

Skin type indications: wrinkles and fine lines, rough texture, dull and sallow skin.

O2 LIFT OXYGEN DOME FACIALS

₱163,172

Oxygen offers numerous benefits for healthy-looking, radiant complexion. It helps revitalize collagen-depleted skin, adds brightness to lackluster complexion, cleans out clogged pores, and clarifies troubled skin. Overall, a proper oxygen facial delivers a gorgeous glow and a fresh, uplifted look. The treatment includes LED light therapy and can be optimized with dermaplaning.

Skin type indications: wrinkles and fine lines, rough texture, dull and sallow skin.

FACIAL TREATMENTS

FULL FACE LASER WITH LIGHT CHEMICAL PEEL AND DERMAPLANING

₱198,382.80

Full Face Laser hair removal on the face is a non invasive medical procedure that uses a beam of light (a laser) to remove hair from the face.

Laser hair removal can be done on other parts of the body too, like the armpits, legs, or bikini area, but on the face it is used primarily around the mouth, chin, or cheeks.

A light (superficial) chemical peel removes the outer layer of the skin (epidermis). It is used to treat fine lines and wrinkles, acne, uneven skin tone, and dryness.

If you are a laser hair removal treatment patient and need a benefit of both Light chemical peel and laser hair removal, this treatment is best for you .

Skin type indications: blocked pores, fine lines and wrinkles, rough texture, dull and sallow skin.

HYDRATING AND RESURFACING MEDIUM DEPTH PEEL TREATMENT

₱139,555

This is a unique, multi-ingredient chemical peel facial treatment for congested, hyper-pigmented and aging skin.

Congested skin is first decongested using the innovative Hydra-Dermabrasion technique which consists of a combination of cleansing, exfoliation, extraction, hydration, and moisturizing serums.

A chemical peel is then applied to the treatment area.

This peel includes azelaic acid, resorcinol, and phytic acid, which lighten and reduce the appearance of pigmentation while also working to tighten pores and dry out active lesions on the face.

Skin type indications: break out prone skin, congestion, rough texture, dull and sallow skin..

CHEMICAL SKIN PEELS

Our Medical Grade Doctor led Chemical Peel involves applying a chemical solution to the skin to remove its outer layers. This causes resurfacing of the skin resulting in softer, smoother, and more youthful looking skin.

Medical Grade Chemical Peels can target the following skin conditions:

- Acne;
- Acne scarring;
- Fine lines and wrinkles;
- Hyperpigmentation;
- Large pores;
- Uneven skin tone;
- Sun damaged and aging skin; and
- Redness and rosacea.

CHEMICAL SKIN PEELS

IMAGE SKINCARE ORMEDIC PEEL

₱153,510.50

This luxurious treatment helps diminish dark spots using advanced lightening and exfoliating technologies.

It is gentle yet effective, making it a perfect option for pregnant women and those with hormonal skin. This treatment provides a safe, soothing, and brightening solution for sensitive skin during this period.

Skin type indications: rough texture, dull and sallow skin, hormonal skin, pregnancy, uneven skin tone, and pigmentation concerns.

IMAGE SKINCARE SIGNATURE PEEL

₱85,021.20

A potent blend of Vitamin C and fruit enzymes in an organic aloe vera base works to visibly reduce redness, calm inflammation, and brighten dull skin. A glycolic acid granulated mask gently exfoliates and refines skin texture, promoting a smooth, radiant complexion. To enhance moisture retention, hyaluronic acid delivers superior hydration, leaving the skin plump and dewy. This luxurious treatment is completed with LED light therapy to boost glow and support overall skin rejuvenation.

Skin type indications: redness-prone, dehydrated, smoker's skin, dull.

IMAGE SKINCARE SIGNATURE PEEL COMBINED WITH DERMAPLANING

₱88,027

A potent blend of Vitamin C and fruit enzymes in an organic aloe vera base works to visibly reduce redness, calm inflammation, and brighten dull skin. A glycolic acid granulated mask gently exfoliates and refines skin texture, promoting a smooth, radiant complexion. To enhance moisture retention, hyaluronic acid delivers superior hydration, leaving the skin plump and dewy. This luxurious treatment is completed with LED light therapy to boost glow and support overall skin rejuvenation.

Skin type indications: redness-prone, dehydrated, smoker's skin, dull.

DERMACEUTIC MILK PEEL

₱85,021.20

This is a superficial chemical peel suitable to brightens dull skin, smooths fine lines, refines pores, and evens out skin tone. Ideal for oily skin, dilated pores, and cystic acne. Includes LED light therapy for enhanced glow and healing.

A series of Milk Peels brightens the skin, refines pores, balances oil, and smooths fine lines.

Skin type indications: wrinkles, dry/dehydrated, smoker's skin, dull, oily/cystic acne .

CHEMICAL SKIN PEELS

TCA SPOT TREATMENT CHEMICAL PEEL

35%

SMALL – ₱234,024

MEDIUM – ₱311,315

LARGE – ₱392,901

This clinical treatment combines chemical and mechanical exfoliation with antibacterial salicylic acid and anti-inflammatory botanicals to heal breakouts on the chest and back.

Skin type indications: acne breakout on any part of the body. (90 mins).

The Trichloroacetic acid (TCA) peel is a type of chemical peel which is applied to the skin to smooth the surface and remove the top layer of dead skin.

Breakouts are not limited to the skin on your face. This clinical treatment combines fruit enzymes, beta-hydroxy-acids, and powerful anti-inflammatory botanicals to eliminate stubborn and often embarrassing body acne.

A TCA Chemical Peel helps: minimize blemishes;

- reduce the appearance of wrinkles;
- even skin color;
- help with removal of precancerous growths; soften acne scars; and
- help prevent and control acne.

CHEMICAL SKIN PEELS

SKYE PERFECTION PLUS CHEMICAL PEEL

₦371,967.7

This peel is an extremely effective treatment for acne and uneven skin tone caused by excessive melanin production; it contains the powerful ingredients which help to exfoliate the skin, promote cell turnover and inhibit melanin synthesis, leading to a more even and radiant complexion.

Skin type indications: advanced aging, pigmentation, acne, dull skin .

THE COSMELAN DEPIGMENTING PEEL – PER TREATMENT

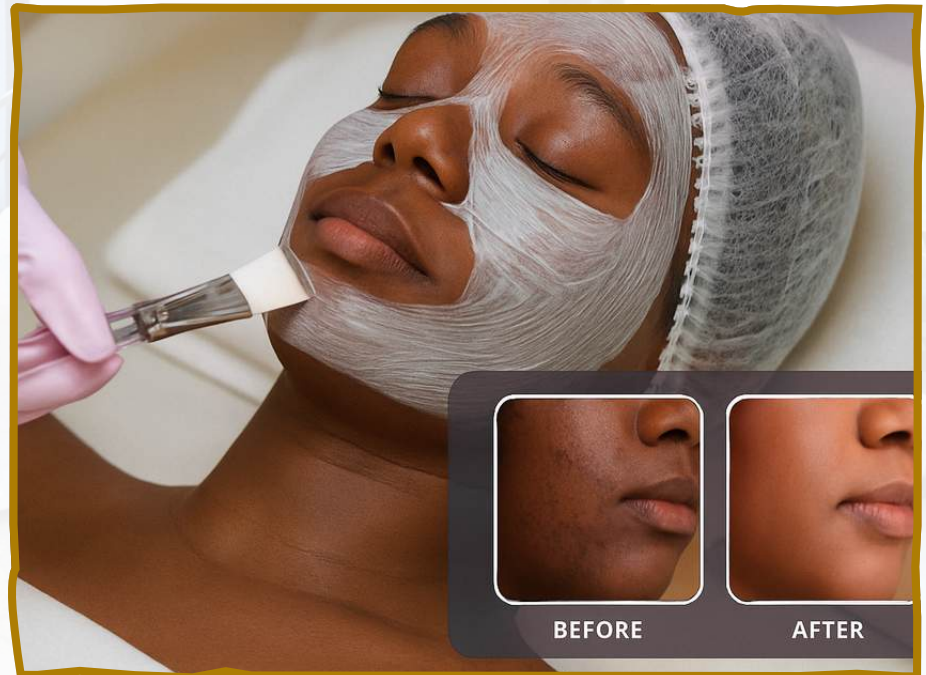

₦588,278

This unique, multi-ingredient chemical treatment is designed to reduce areas of skin discoloration and hyperpigmentation. The Cosmelan Peel decreases the skins natural melanin production by inhibiting certain enzymes, providing an even complexion.

A Cosmelan Peel can be used to improve the look of the skin on the face, the abdomen, legs/hands, as well as the chest area.

POST TREATMENT PRODUCTS MUST BE BOUGHT SEPERATELY.
MAY BE OPTIMISED WITH ADDITIONAL PEEL AT AN ADDITIONAL COST.

Skin type indications: dull skin, dry areas, deep hyperpigmentation, blemishes, acne scars, discoloration due to Melasma.

BODY TREATMENTS

Experience radiant, even-toned skin with our advanced body care treatments designed to exfoliate, smooth, and rejuvenate.

- **Body Scrub:** A deep exfoliating treatment that removes dead skin cells, and leaves it silky smooth and glowing.
- **Chemical Peel:** A targeted treatment that helps resurface the skin, improving texture, tone, and overall clarity.
- **Spot Bleaching:** Focused brightening treatment that targets hyperpigmentation, dark spots, and uneven skin tone for a more uniform complexion.
- **Scar Revision:** Advanced treatment aimed at improving the appearance of scars, promoting smoother & healthier-looking skin.

Each treatment is expertly performed using advanced techniques to deliver visible, long-lasting results.

BODY TREATMENTS

FULL BODY SCRUB

₦81,586

Maintain baby-soft skin all year long!

This luxurious treatment begins with a full-body steaming session to purge the skin of toxins and imperfections. It is followed by a full-body scrub that combines the benefits of microdermabrasion with natural skin polishers to create a flawless canvas. The process is repeated multiple times with extra sugar and spice infusions in between, leaving the skin with an even, naturally bronzed glow.

This physical manual exfoliation treatment uses sugar and sea salts to gently remove dead skin cells and combat acne.

Benefits:

- Treats and helps prevent acne.
- Targets and improves pigmentation (1 area depigmenting).
- Boosts skin radiance and smoothness.
- Removes the top layer of dead skin cells.
- Enhances the effectiveness of topical treatments.

Skin Type Indication: Acne-prone skin, rough texture, dull or sallow skin.

DEPIGMENTING SPOT BLEACHING

At Skye Medical Aesthetics Center, we believe that everyone deserves to feel confident and comfortable in their own skin.

Transform your mental health and general wellbeing with our bespoke depigmenting Spot Bleaching Treatments. This treatment is just the beginning of the personalized and effective intimate care services that we offer.

This treatment can be used for the following areas:

- Brazillian
- Inner Thigh
- Under Arms
- Shoulder
- Elbows
- Bra Strap
- Hands
- Knees
- Burst

(Areas which naturally come as a pair, such as Under arms, Knees, Elbows and Knuckles are charged as one area).

1 AREA DEPIGMENTING	₦145,996
3 AREAS DEPIGMENTING	₦234,023
5 AREAS DEPIGMENTING	₦360,396

DERMANEEDLING FOR SCAR REVISION

This treatment uses tiny needles to puncture the skin and effectively treats:

- Dark spots
- Stretch marks
- Uneven skin tone
- Scars due to surgery or injury

The treatment is minimally invasive and safe for all skin types. It works by stimulating your body to make collagen, hence why it is also called “collagen induction therapy”.

When properly performed, your body responds by healing itself in the process creating just the right amount of collagen. This can lead to less noticeable scars and wrinkles, more even skin tone and a better texture.

SCARS AND STRETCH-MARK REVISION

SMALL	₦268,288
MEDIUM	₦497,664
LARGE	₦604,160

MASSAGE TREATMENTS

WOOD THERAPY MASSAGE (PER AREA)

₦40,793

This body toning massage treatment fights skin laxity on a cellular level, combating cellulite, stimulating collagen and reducing the volume of lipid cells for a smooth contoured body.

This treatment is ideal for people who might have had liposuction, fat transfer and people who suffer from cellulite.

BODY SCULPTING CAVITATION AND RADIO FREQUENCY THERAPY

₦72,998
(Per Area)

This treatment is a non-invasive, non-surgical way to reduce inches, target stubborn fat, and sculpt the body. It helps to smooth and contour areas such as the abdomen, thighs, and buttocks quickly, safely, and effectively.

This treatment is also highly beneficial for breaking down post-BBL fibrosis and improving scar tissue after C-sections, helping to restore skin softness and circulation.

It's ideal for individuals who've had liposuction or fat transfer, those struggling with cellulite, or anyone looking to lose a few extra inches in targeted areas.

A series of six weekly sessions is recommended for optimal results.

EMSCULPT

₦480,928

Despite our best efforts, we cannot always contour our bodies the way we would like with diet and exercise alone, this is especially true when it comes to the stomach area, which is prone to fat build-up and sagging with age. The Emsculpt treatment can help you contour your body the way you want with no downtime or discomfort. The results show that abdominal fat was reduced by an average of nearly 19%, abdominal muscle tissue increased by 15%, and abdominal muscle separation (which can cause your belly to protrude) was reduced by as much as 10%. We usually recommend a course of treatments.

BOTULINUM TOXIN TREATMENT

BOTULINUM TOXIN

RELAXING SHOULDERS	₦880,270
HYPERHIDROSIS	₦880,270
RELAXING LEG MUSCLES	₦880,270
RELAXING MASSETTA MUSCLES	₦500,251
BOTOX ON FACE	₦10,735 (per Unit)

Botulinum Toxin injections are a group of medications that use various forms of muscle relaxing toxins to temporarily paralyze muscle activity.

Botulinum Toxin injections are noted primarily for the ability to reduce the appearance of some facial wrinkles.

They are also used to treat such problems as repetitive neck spasms (cervical dystonia), excessive sweating (hyperhidrosis) and lazy eye.

POLYCAPROLACTONE THREAD TREATMENTS

POLYCAPROLACTONE (PCL) THREADS TREATMENTS

FULL FACE LIFT	₺2,870,839
LOWER FACE LIFT	₺1,766,680
FOX EYE	₺993,760
BARBIE NOSE	₺1,287,000
(WITH 1 ML FILLER)	₺1,490,640
UNDER CHIN LIFT	₺1,324,990
PCL MONO THREADS FOR EYE	₺386,460
PCL MONO THREADS FOR SMILE LINES	₺353,332
PCL MONO THREADS CROSS HATCH	₺861,247

These are the latest monofilament suspension threads made of synthetic caprolactone. They stimulate the skin's natural regeneration process, improving firmness and elasticity while promoting long-lasting collagen production. PCL threads last up to twice as long as PDO threads and offer more prolonged rejuvenation results.

MEDICALLY ASSISTED WEIGHTLOSS

MEDICALLY ASSISTED WEIGHT LOSS PROGRAM

TBC

Our Medically Assisted Weight Loss Program is an FDA approved program primarily prescribed for adults with type 2 diabetes, that has now been approved for weight loss.

When used alongside a good diet and frequent exercise, this treatment will improve blood sugar levels, reduce the risk of major cardiovascular events and most importantly reduce appetite, thus leading to significant weight loss.

Studies have shown 15%-18% weight loss in adults who have a BMI of over 30. Treatment duration depends on individual weight loss goals, however we would suggest 4-6 month programs per session.

LEMON BOTTLE LIPOLYSIS (FAT DISSOLVING)

₱216,848
₱153,35 PER
ADDITIONAL VILE

Lemon Bottle is a non-surgical lipolysis treatment that targets and breaks down stubborn fat pockets using a natural, antioxidant-rich formula. The solution is injected directly into subcutaneous fat through multiple micro-injections over a series of sessions. It helps destroy fat cells, smooth contours, and refine body shape with minimal downtime.

AQUALYX LIPOLYSIS (FAT DISSOLVING)

₱216,848
₱153,35 PER
ADDITIONAL VILE

Aqualyx is an injectable lipolysis treatment designed to contour and sculpt the body by breaking down localized fat deposits. The solution is administered directly into subcutaneous fat via multiple micro-injections, allowing the body to gradually eliminate the dissolved fat cells naturally. It's ideal for defining areas like the chin, abdomen, and thighs.

PRP TREATMENTS

PRP MESOTHERAPY

₦343,520

PRP Mesotherapy is a highly effective, natural treatment that harnesses your body's own healing power to stimulate cellular growth, tissue repair, and skin rejuvenation from within.

This treatment can be performed on the face, under-eye area, neck, décolletage, scalp (for hair growth), and hands, improving skin texture, tone, and hydration.

For optimal, long-lasting results, multiple sessions are recommended as part of a personalized treatment plan.

DERMA-NEEDLING WITH PRP MESOTHERAPY AKA VAMPIRE FACIAL

₦470,193

As we age our body's natural production of collagen and elastin naturally slows down, in addition, external factors; including UV rays and pollution further damage our collagen and elastin.

This Dermaneedling treatment combined with Mesotherapy, effectively opens up channels in the skin that help the Platelet Rich Plasma to be absorbed into the layer of the skin where it will be most effective.

Skin type indications: Acne scarring, oily, aging.

Pay for 5 sessions, get the sixth session free.

O – SHOTS

₦480,928

The Orgasm Shot (or O Shot) is part of a series of treatments which form our Aesthetic Gynecology practice, it is a non-surgical in-office medical, sexual and cosmetic rejuvenation treatment for the vagina using the preparation and injection of blood-derived growth factors.

The PRP solution is injected into the clitoris and vagina to stimulate potent stem cells to generate healthier and more functional tissue, thus improving the areas sexual response and as well as addressing urinary incontinence within the vagina (G-Spot, O-Spot, Skene's Glands, urethra, and vaginal wall). There is no risk of adverse reaction, because PRP is obtained from your own blood, number of sessions is dependent of the specific issues being addressed.

PRP TREATMENTS

PRP UNDER EYE TREATMENT

₦470,193

This treatment is a natural, non-surgical solution for improving under-eye circles and bags.

The Doctor carefully extracts the patient's own blood and separates the plasma, which is rich in collagen and growth factors. This personalized regenerative serum is then injected into the under-eye area to stimulate tissue repair, boost collagen production, and restore volume and brightness. There is a 24–48 hour downtime due to temporary puffiness. During this time, clients should avoid wearing glasses or sunglasses. For optimal results, multiple sessions are recommended.

As a result, you can:

- Regain lost elasticity and plumpness by strengthening collagen and elastin.
- Stimulate new blood vessel formation to improve pigmentation and skin tone.
- Reduce puffiness caused by excess fluid retention and toxins.

Mild discomfort may occur during injections, but localized numbing ensures the treatment is well tolerated. Visible results typically appear about 4 weeks post-treatment, with continued improvement over time.

Pay for five sessions and get the sixth session free.

PRP FULL FACE REJUVENATION

₦833,036

This treatment combines several PRP-based procedures for ultimate skin and hair rejuvenation. It includes PRP Under Eye Rejuvenation, PRP Mesotherapy, and the world-famous Vampire Facial with PRP Derma-needling.

We begin with PRP Under Eye Rejuvenation to refresh and brighten the eye area for a more youthful, well-rested look. Next, we proceed with PRP Mesotherapy, where PRP is injected into the face, hairline, neck, and décolletage to boost collagen, stimulate healthy hair growth, and improve skin texture. The treatment is completed with PRP Derma-needling, which enhances absorption and delivers a natural, radiant glow.

There is a 24–48 hour downtime, and final results are typically visible 4–6 weeks post-treatment.

For best results, multiple sessions are recommended.

Pay for five sessions and get the sixth session free.

LASER HAIR REMOVAL

Our Laser Hair Removal treatment is performed using advanced technology that gradually heats the dermis to a temperature that effectively destroys hair follicles, preventing further hair growth.

This treatment is an excellent option for permanently reducing unwanted hair on both the face and body. Unlike temporary methods such as waxing, shaving, or threading, laser hair removal offers a long-term solution with smooth, lasting results.

The laser precisely targets and destroys hair follicles at the root, with absolutely no downtime. It's a fast, relatively painless procedure, with sessions scheduled every 3 to 6 weeks depending on the area being treated.

At our clinic, we use the **Soprano Ice Platinum** and **Candela Gentle Max Pro (Nd:YAG)** laser for our laser hair removal treatments.

The **Soprano Ice Platinum** offers virtually pain-free sessions through its continuous motion technology, while the **Candela Gentle Max Pro (Nd:YAG)** is ideal for targeting deeper hair follicles and is especially safe and effective for darker skin tones.

ELECTROLYSIS HAIR REMOVAL

SKYE MEDICAL AESTHETICS CENTER
YOUR NUMBER ONE BEAUTY EXPERTS

Electrolysis for Permanent Hair Removal is a highly effective and FDA-approved method for achieving permanent hair removal.

Using a fine, sterilized probe inserted into the hair follicle, a controlled electrical current travels to the base of the follicle, destroying the hair root. This process prevents future growth and causes existing hair to fall out.

The treatment can be done on unwanted hair on virtually any part of the body except inside the nose or ears. It is suitable for all skin and hair types, making it a versatile option for anyone seeking a long-term solution for unwanted hair.

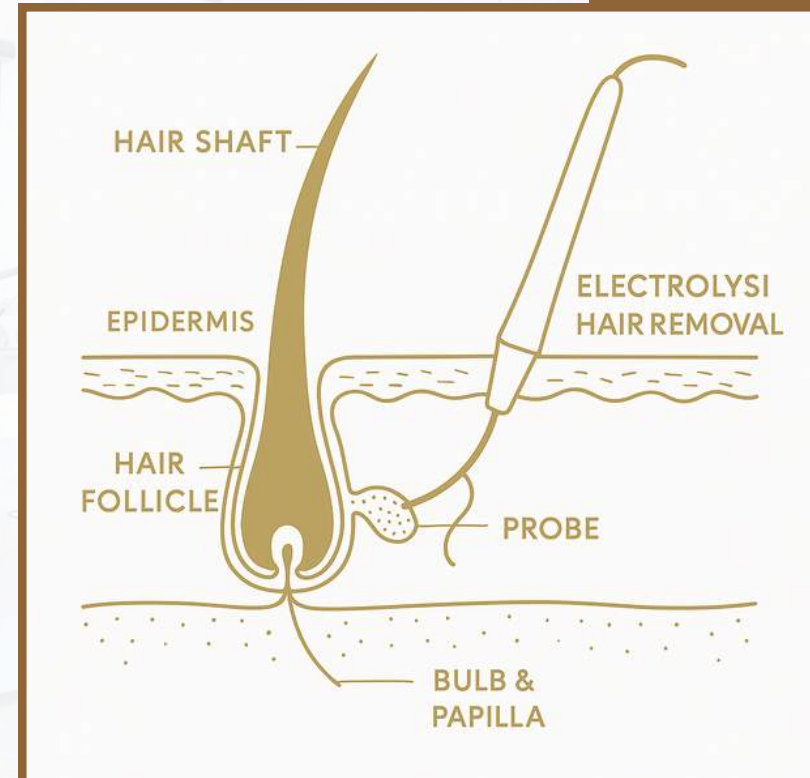

Electrolysis is also the best treatment for hair that has lost its pigment, including blonde, gray, or white hairs that lasers cannot effectively target.

AESTHETIC GYNAECOLOGY

Women of all ages seek our renowned Aesthetic expertise, our non-invasive approaches and our mastery of Aesthetic Gynaecology to improve the look and feel of their vaginal area.

We are Aesthetics experts who provide patient-tailored treatment protocols for women who want to achieve cosmetic and/or functional improvements in this sensitive area.

Our advanced vaginal rejuvenation treatments are expertly designed and personalized to address tightness, dryness, appearance, sexual drive, and stimulation. Our aim is to help with everything that stands between you and an unconditional love for your body. We have found that strategically combining treatments is the optimal method of comprehensively rejuvenating the vaginal area.

Our unique touch is a customized combination of radio frequency, laser skin tightening, dermal fillers, and injectable bio-cellular healing treatments.

AESTHETIC GYNAECOLOGY

INTIMATE DERMAL FILLERS TO PLUMP AND CONTOUR

₩418,625

Intimate Dermal Fillers are a non-surgical treatment designed to plump, contour, and rejuvenate the intimate area, restoring both appearance and comfort.

This treatment involves carefully injecting advanced hyaluronic acid-based dermal fillers into the labia majora or surrounding tissues to enhance volume, smooth out deflation, and restore a more youthful look. It can also help improve hydration, elasticity, and overall confidence in the intimate area.

Intimate Dermal Fillers are ideal for women experiencing natural volume loss due to aging, hormonal changes, or childbirth. The procedure is quick, minimally invasive, and has little to no downtime. Results are immediate and can last several months to over a year, depending on the product used and individual factors.

PLATELET-RICH PLASMA (PRP) O-SHOTS

₩633,365

Platelet-Rich Plasma (PRP) O-Shots are an innovative, non-surgical treatment designed to enhance female sexual wellness and intimate health.

The procedure involves drawing a small amount of the patient's own blood, which is then processed to extract Platelet-Rich Plasma (PRP), a powerful concentrate of growth factors. The PRP is gently injected into specific areas of the vaginal and clitoral tissue to stimulate collagen production, increase blood flow, and regenerate sensitive tissue.

PRP O-Shots can help improve vaginal lubrication, increase arousal and sensitivity, enhance sexual satisfaction, and reduce mild stress urinary incontinence.

The treatment is quick, safe, and requires no downtime. Results are often noticeable within weeks, with continued improvement over time. Multiple sessions may be recommended for optimal results.

AESTHETIC GYNAECOLOGY

HIGH INTENSITY FOCUSED ULTRASOUND VAGINAL TIGHTENING

₦307,021

High Intensity Focused Ultrasound (HIFU) Vaginal Tightening is a non-surgical treatment designed to restore vaginal firmness, elasticity, and hydration.

This treatment uses focused ultrasound energy to stimulate collagen and elastin production deep within the vaginal tissues. The heat generated by the ultrasound encourages tissue regeneration, resulting in improved tightness, moisture, and sensitivity over time.

HIFU Vaginal Tightening is ideal for women experiencing vaginal laxity due to childbirth, aging, or hormonal changes. It can also help improve mild stress urinary incontinence and enhance sexual satisfaction.

The procedure is quick, comfortable, and requires no downtime, allowing patients to return to normal activities immediately. Multiple sessions may be recommended for optimal results.

FRACTIONAL CO2 LASER VAGINAL TIGHTENING

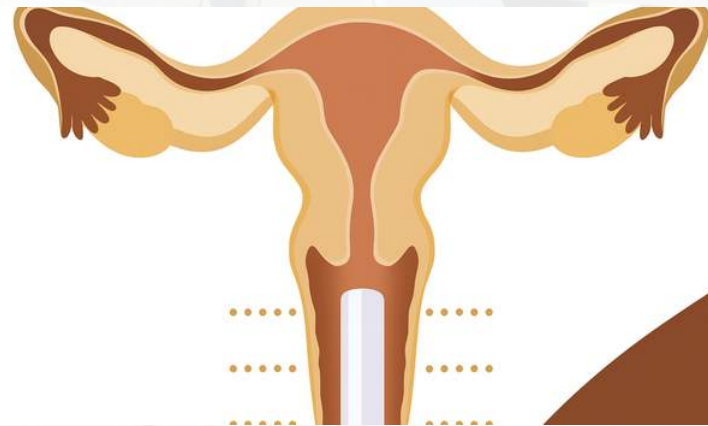

₦1,395,550

Fractional CO₂ Laser Vaginal Tightening is a non-surgical laser treatment that helps restore vaginal tone, elasticity, and natural lubrication.

This procedure uses controlled fractional CO₂ laser energy to gently heat the vaginal tissues, stimulating collagen and elastin production. As the tissues regenerate, they become firmer, more hydrated, and better supported, resulting in improved tightness and comfort.

Fractional CO₂ Vaginal Tightening is especially beneficial for women experiencing laxity, dryness, or discomfort due to childbirth, hormonal changes, or aging. It can also help improve mild stress urinary incontinence and enhance sexual satisfaction.

The treatment is quick, minimally invasive, and requires little to no downtime, allowing patients to return to their daily activities immediately. Multiple sessions may be recommended for best results.

IV INFUSIONS

SKINNY DRIP

₺137,408

Boost your metabolism & burn fat with our Weight Loss IV – the Skinny Drip!. Blast away stubborn fats, accelerate weight loss, and feel energized.

Active Ingredients:

- B Vitamins – boost metabolism
- L-Carnitine – burns fat

Benefits includes:

- Speeds up weight loss;
- Boosts energy; and
- Supports fat metabolism.

THE MYERS COCKTAIL

₺161,025

A powerful blend of vitamins and minerals to boost energy, immunity, and overall wellness.

Active Ingredients:

- B6 & B12 – boost energy & metabolism
- Vitamin C – strengthens immunity
- Calcium & Magnesium – support bone, nerve & muscle function
- (Optional: Ginkgo Biloba – enhances circulation & mental clarity)

Benefits:

- Boosts energy;
- Strengthens immunity; and
- Promotes wellness & recovery.

IV INFUSIONS

MAGIC GLOW

₺191,083

This intravenous therapy delivers a powerful blend of vitamins, minerals, and antioxidants directly into your system for maximum absorption. What makes it unique is the addition of depigmenting agents that help brighten and even out the skin.

Active Ingredients:

- Tranexamic Acid – helps reduce hyperpigmentation;
- B Complex – boosts energy & supports skin health;
- Vitamin C – brightens skin & strengthens immunity; and
- Glutathione – powerful antioxidant & skin brightener.

Benefits:

- Brightens and evens skin tone;
- Boosts energy and overall wellness;
- Strengthens immunity; and
- Reduces hyperpigmentation and dullness.

(Pay For 5 Sessions Get 1 Free)

SUPER BRIGHT

₺191,083

This advanced brightening treatment is formulated with higher doses of skin-lightening and antioxidant ingredients, making it more potent than the standard Magic Glow IV. It's one of the most effective options for melasma, hyperpigmentation, and achieving an overall brighter, more luminous complexion. Sessions are scheduled every 2 weeks, with the number of treatments tailored to each client's individual skin goals.

Active Ingredients:

- Tranexamic Acid – targets stubborn pigmentation;
- Vitamin C – brightens skin & boosts collagen;
- Glutathione – powerful antioxidant & skin lightener; and
- B Complex + Antioxidants – support skin health & radiance.

Benefits:

- Intense brightening and skin rejuvenation;
- Reduces melasma and hyperpigmentation; and
- Boosts energy and overall wellness.

(Pay For 5 Sessions Get 1 Free)

IV INFUSIONS

NAD+ (NICOTINAMIDE ADENINE)

₩750,000

A premium, Doctor-led infusion that replenishes NAD+, a vital coenzyme that fuels cellular energy and supports repair. This advanced therapy enhances wellness, mental clarity, and recovery while complementing healthy lifestyle habits.

Active Ingredients:

- NAD+ (Nicotinamide Adenine Dinucleotide) – boosts cellular energy & supports repair; and
- Depigmenting Agents (optional) – promote a brighter, more even skin tone.

Benefits:

- Increases energy and mental clarity;
- Supports focus and cognitive performance;
- Enhances recovery and resilience; and
- Supports longevity and overall wellness.

This treatment is infused slowly for comfort and safety under medical supervision. It comes in 500 mg and 1000 mg doses, and pricing varies depending on the chosen dosage. The duration depends on the client's preference and dosage. It can also be administered as an IM (intramuscular) injection and may be given as often as weekly for corrective treatment. Dosing and rate are customized for each session.

This treatment is not suitable for individuals who are pregnant or breastfeeding, have severe liver or kidney disease, acute infection, or uncontrolled cardiac issues. A clinician will always assess you first.

DERMAL FILLERS

At Skye Medical Aesthetics Center, our Dermal Filler treatments are designed to restore youthful fullness, enhance moisture, and illuminate your natural glow. Using premium medical-grade injectables, our clinicians deliver subtle, elegant results that refresh and lift without altering your unique features.

Types of Fillers & Techniques:

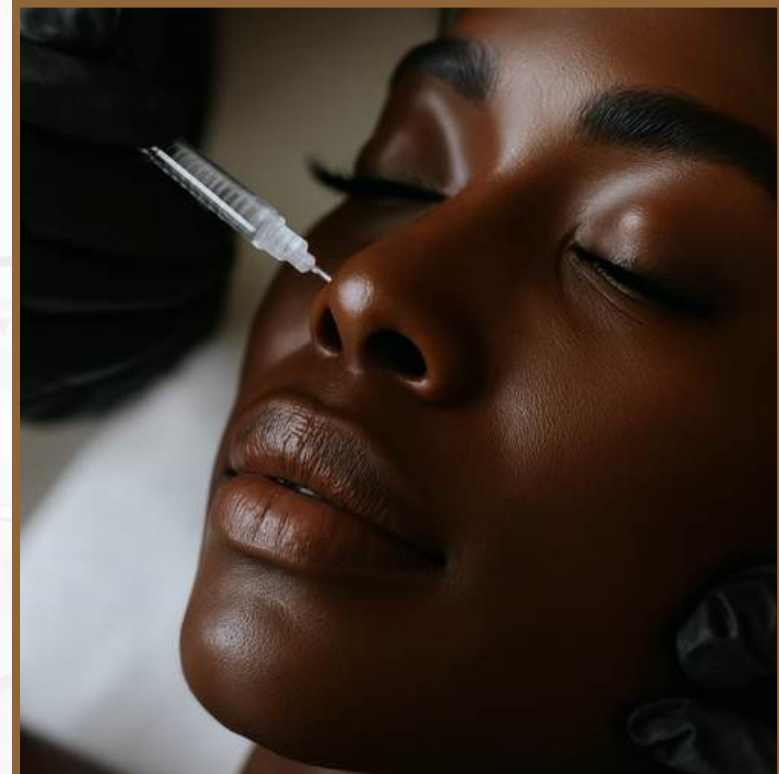

Hyaluronic Acid Fillers (HA) – Deeply hydrating and plumping to smooth lines, define contours, and enhance facial structure.

Hyaluronic Acid 5-Point Injection – A precision technique targeting key mid-face points to subtly lift and contour the face for a natural, rejuvenated look.

Profilo® – A bio-remodeling injectable that floods the skin with hydration, improves elasticity, and creates a radiant, dewy complexion.

PLLA (Poly-L-Lactic Acid) – A collagen-stimulating filler that gradually restores firmness and improves skin quality over time.

All injectables are performed by experts in a safe, luxury setting.

DERMAL FILLERS

HYALURONIDASE

**₦390,754 PER
SYRINGE**

Hyaluronidase permanently dissolves Hyaluronic Acid fillers by breaking the bonds between the filler (Hyaluronic Acid chains), leading to permanent removal. Hyaluronidase can be used as an eraser to correct misplaced filler and has immediate results.

TEAR TROUGH (UNDER EYE) FILLER TREATMENT

**₦390,754 PER
SYRINGE**

Tear trough filler treatment, also referred to as under-eye dermal fillers, is a popular cosmetic solution for tackling sunken and tired looking eyes. It is a non-surgical treatment aimed at treating deep wrinkles and sunken eyes; It involves carefully injecting a Hyaluronic Acid based gel-like substance into specific areas around the eyes, which works to replace the lost volume brought about through the aging process.

HYALURONIC ACID FILLERS

Hyaluronic acid fillers are advanced injectables used to restore facial fullness, boost hydration, and enhance natural contours. This treatment smooths fine lines, plumps the skin, and delivers a soft, refreshed appearance.

Results are immediate, natural-looking, and require little to no downtime **₦338,153.00- ₦570,000 PER SYRINGE**

₦338,153.00- ₦570,000 PER SYRINGE

DERMAL FILLERS

HYALURONIC ACID REJUVINATING 5 POINT INJECTION

₦299,935.9

without adding unnecessary volume.

₦480,925

Benefits:

- Deep, long-lasting hydration;
- Boosts skin elasticity and firmness;
- Smooths fine lines and crepey texture; and
- Enhances natural glow with minimal downtime.

The 5-Point Injection is a specialized skin-boosting technique that uses pure hyaluronic acid to deeply hydrate, lift, and rejuvenate the face with minimal downtime. This advanced method targets five strategic points on each side of the face to achieve a natural, refreshed appearance without adding unnecessary bulk.

Hyaluronic acid works by replenishing lost hydration and stimulating collagen, resulting in plumper, firmer, and more radiant skin over time.

Benefits:

- Deep, long-lasting hydration;
- Improves skin firmness and elasticity; and
- Softens fine lines and boosts overall skin quality.

PROFHILO HYALURONIC ACID 5 POINT INJECTION

₦466,650.45

The Profhilo® 5-Point Injection is a rejuvenating skin treatment designed to deeply hydrate, tighten, and restore radiance. Using ultrapure hyaluronic acid, the product is strategically injected into five key points on each side of the face for maximum lift and glow,

DERMAL FILLERS

PLLA (POLY-L-LACTIC ACID)

₱1,034,854
PER 400 MG

PLLA (Poly-L-Lactic Acid) is a bio-stimulatory injection that works by stimulating your body's natural collagen production. It helps restore structure, firmness, and youthful definition gradually, creating results that look natural and last long.

PLLA (Poly-L-Lactic Acid) is effective for both facial rejuvenation and body contouring. On the face, it can lift sagging skin, restore cheek and jawline definition, smooth wrinkles, and rebuild volume loss. On the body, it can enhance the buttocks, smooth and tighten crepey skin on the arms, thighs, hips, abdomen, and décolletage.

Key Benefits:

- Lifts and firms sagging skin;
- Improves contour and definition;
- Tightens and smooths crepey skin on face and body;
- Stimulates collagen for gradual, natural results; and
- Lasts up to 2 years with maintenance.

All procedures are performed by experienced medical professionals at Skye Medical Aesthetics Center in a safe, Doctor-led, luxurious environment.

HAIR TREATMENTS

STEROID INJECTIONS FOR HAIR LOSS

₦92,321

Steroid injections (also called intralesional corticosteroid injections) are a well-established medical treatment for certain types of hair loss, especially Alopecia Areata. They work by delivering anti-inflammatory medication directly into the scalp, targeting the hair follicles to calm the autoimmune or inflammatory response that's causing hair shedding.

Benefits:

- Reduces inflammation around hair follicles;
- Encourages regrowth in thinning or bald patches; and
- Quick, non-surgical treatment with minimal downtime.

Multiple sessions are usually required for best results.

MESOTHERAPY HAIR BOOSTERS

₦216,847

Mesotherapy addresses hair loss by directly injecting essential nutrients and minerals into the scalp. It helps boost circulation to the scalp and provides stimulation for new hair growth. The procedure requires sessions of half an hour each, where you may notice visible results after the fifth session.

Benefits:

- Nourishes and strengthens hair follicles;
- Improves scalp circulation;
- Encourages healthy, thicker hair growth; and
- Visible results often after the fifth session.

Treatment is priced per syringe

HAIR TREATMENTS

PRP HAIR REJUVENATION

PRP hair Line Rejuvenation for hair-loss is an effective non-surgical solution to treat pattern baldness and receding hairlines. This treatment is available for both men and women.

Dealing with hair loss can be one of the hardest conditions that both men and women can experience as it can deeply affect self-esteem and confidence.

Finally we will administer the PRP Dermaneedling and mesotherapy into the treatment area. When the platelets in the plasma are concentrated, magic happens. The results are extra ordinary.

For optimal results, multiple sessions are required.

Pay for five sessions and get the sixth session free.

HAIRLINE	₦397,195
FULL HEAD	₦596,866

HIGH INTENSITY FOCUSED ULTRASOUND

HIGH INTENSITY FOCUSED ULTRASOUND (HIFU)

High Intensity Focused Ultrasound (HIFU) is a non-surgical treatment that uses targeted ultrasound energy to stimulate collagen production, lift and tighten the skin, and restore elasticity. It is ideal for clients looking for a firm, youthful appearance without downtime.

When used for intimate areas, HIFU helps improve tissue tone, tightness, and overall vaginal health, enhancing comfort and confidence.

- Tightens and lifts skin
- No downtime
- Tightens and lifts skin

For optimal results, multiple sessions are required.

ENDOLIFT SKIN LASER TIGHTENING

ENDOLIFT SKIN LASER TIGHTENING

Endolift is an advanced, minimally invasive laser treatment designed to lift, tighten, and contour the face and body without surgery. Using precise laser energy, it targets the deeper layers of the skin to stimulate collagen production, reduce sagging, and enhance skin elasticity.

This treatment is ideal for contouring the jawline, tightening loose skin on the face, neck, arms, abdomen, and thighs, and improving overall skin texture and tone.

- Minimally invasive
- Immediate tightening effect with progressive results
- stimulates collagen and elastin
- Contours and lifts face and body
- No downtime

This treatment is ideal for patients seeking a firm, youthful, lifted look without the downtime and risks associated with surgical facelifts.

This treatment can be paired with a PCL Full Face Lift for suitable patients who desire an ultra-sculpted look.

FRACTIONAL CO2 LASER TIGHTENING

FRACTIONAL CO2 LASER TIGHTENING

Fractional CO₂ laser is a clinically proven, non-surgical treatment that restores vaginal health and tightens skin by stimulating new collagen and elastin production. The gentle laser energy penetrates deep into the tissues, improving tone, firmness, and hydration, delivering visible tightening and rejuvenation both intimately and on the skin.

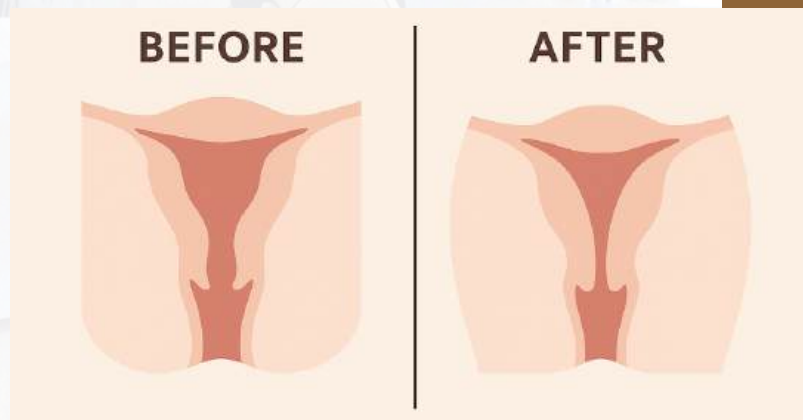

This treatment is ideal for women experiencing vaginal laxity, dryness, or reduced sensation due to childbirth, hormonal changes, or aging, as well as for individuals seeking to tighten loose skin on the face, neck, abdomen, thighs, or arms.

Noticeable improvement is often seen after the first session, with best results achieved after a series of treatments. Skin and vaginal tissues continue to improve as new collagen forms over time, and maintenance sessions may be recommended depending on individual goals.

This treatment is not advised for patients who are pregnant. Mild redness or sensitivity may occur and typically resolves within 24–48 hours.

For optimal results, multiple sessions are required. There is also a risk of rebound pigmentation, especially in patients with darker skin tones, so proper aftercare and sun protection are essential.

RADIOFREQUENCY MICRONEEDLING

(RF) RADIOFREQUENCY MICRONEEDLING

Radiofrequency (RF) Microneedling is a versatile skin rejuvenation treatment that combines radiofrequency energy with microneedling to stimulate collagen and elastin production. It can be performed on the face and body to address multiple skin concerns in a minimally invasive way.

This treatment effectively reduces the appearance of fine lines and wrinkles, improves acne scars, tightens loose skin, minimizes enlarged pores, smooths uneven skin tone and texture, fades stretch marks, and helps correct hyperpigmentation caused by sun damage or aging. It delivers both immediate tightening and progressive skin improvement over time.

- Reduces fine lines and wrinkles;
- Improves acne scars and skin texture;
- Tightens sagging or lax skin;
- Minimizes enlarged pores;
- Evens out tone and texture;
- Fades stretch marks; and
- Improves hyperpigmentation.

Common treatment areas include the face and neck, jawline and lower face, abdomen, thighs and arms, décolletage (chest area), and stretch mark zones such as the stomach, hips, and buttocks.

PRF (PLATELET-RICH FIBRIN) BIO FILLER

PRF (PLATELET-RICH FIBRIN) BIO FILLER

¥1,073,500 PER 400MG

PRF Gel Bio-Filler is a 100% natural injectable derived from your own platelet-rich fibrin (PRF). Once processed into a smooth gel, it's injected into targeted areas to restore volume, rejuvenate the skin, and stimulate natural collagen and elastin production, without introducing any foreign substances into the body.

This innovative treatment improves skin texture, firmness, and hydration over time, while instantly softening fine lines, wrinkles, and areas of volume loss. The gel's flexible consistency allows it to blend seamlessly with your facial structure for natural, subtle enhancement.

- 100% natural & biocompatible
- Safe alternative to synthetic fillers
- Stimulates collagen and elastin
- Smooths fine lines & restores volume

The skin appears plumper and smoother, fine lines are softened, facial contours are enhanced, and overall texture and elasticity improve over time as natural collagen production increases.

For best results, multiple sessions may be recommended depending on individual goals and skin condition.

KOREAN TREATMENTS

Experience the ultimate glow with our **Korean skincare** treatments, designed to deeply hydrate, brighten, and rejuvenate the skin. Combining advanced science with traditional techniques, these treatments restore your skin's natural balance and radiance.

What to Expect: Intense hydration, brightening of uneven tone, soothing of sensitive skin, and visible firming with improved elasticity and collagen production.

Why Korean Skincare? Known for innovation, lightweight formulations, and a skin-first philosophy, Korean skincare delivers a naturally dewy, healthy, and youthful complexion.

These treatments are suitable for all skin types and can be customized to address specific concerns such as dullness, sensitivity, or early signs of aging, making it an ideal choice for year-round skin maintenance and glow.

KOREAN TREATMENTS

KOREAN HYDRO-GLOW FACIAL

₩276,908

The Korean Hydro-Glow Facial combines the full hydradermabrasion steps with advanced hydration and brightening techniques to give the skin a fresh, glass-like finish. Each step of the treatment works in harmony to cleanse, resurface, hydrate, and protect the skin for a smooth and radiant complexion.

The treatment begins with a cleansing and exfoliation step that gently removes dead skin cells, excess oil, and impurities, creating a clean base for deeper penetration of active ingredients. This is followed by the hydropeel step, which flushes out congestion and polishes the skin using water-based solutions. The extraction step then deeply clears blackheads, whiteheads, and buildup from the pores, improving texture and clarity.

Next, the hydration infusion step delivers hyaluronic acid, peptides, and antioxidant serums to plump and nourish the skin from within. An oxygen infusion brightens dull skin and boosts cellular oxygenation, while ultrasound or RF enhances collagen stimulation and serum penetration for firmer skin. The treatment finishes with a cooling step that soothes, calms, and locks in moisture, leaving the skin glowing, hydrated, and smooth.

Skin Indications: This treatment is ideal for dull, dehydrated skin, uneven tone, enlarged pores, fine lines, sensitivity, pigmentation, and tired skin needing instant glow.

KOREAN SALMON DNA FACIAL

₩313,950

Korean Salmon DNA treatment is an advanced injectable skin booster designed to repair, hydrate, and rejuvenate the skin from within. It uses polynucleotides derived from salmon DNA, which are known for their strong regenerative and anti-aging properties.

When injected into the skin, it stimulates collagen and elastin production, improves skin texture and elasticity, and helps restore the skin's natural glow. It also enhances cell turnover and strengthens the skin barrier, making it smoother, firmer, and more radiant over time.

- Deep hydration and repair;
- Boosts collagen and elastin;
- Improves texture and elasticity;
- Brightens dull, tired skin; and
- Strengthens the skin barrier.

Skin Indications: This treatment is ideal for dull, dehydrated skin, uneven tone, enlarged pores, fine lines, sensitivity, pigmentation, and tired skin needing instant glow.

KOREAN TREATMENTS

KOREAN DEPIGMENTING MESOTHERAPY FOR INTIMATE AREA

₩313,950

Korean Depigmenting Mesotherapy is a gentle yet effective treatment designed to brighten and even out skin tone in intimate areas. It uses advanced Korean brightening formulations infused through mesotherapy techniques to target hyperpigmentation, dark spots, and uneven tone without harsh peeling or downtime.

The treatment works by inhibiting melanin production, improving skin clarity, and restoring a brighter, smoother, and more uniform complexion over time. It is safe, minimally invasive, and suitable for sensitive skin.

- Brightens and evens skin tone;
- Reduces pigmentation and dark spots;
- Improves texture and skin clarity;
- Safe for intimate and sensitive areas;
- No downtime, minimal discomfort;

Skin Indications: ideal for intimate hyperpigmentation, dark inner thighs, underarms, bikini line, and other sensitive areas.

KOREAN SPICULE SKIN RESURFACING FACIAL

₩330,487

The Korean Spicule Skin Resurfacing Facial is an advanced resurfacing treatment that uses natural microneedle-like marine spicules to gently stimulate the skin's regeneration process. Unlike traditional microneedling, this facial works without machines, using microscopic spicules to penetrate the skin, boost cell turnover, and enhance collagen production.

The treatment helps to resurface rough skin, refine pores, brighten dull complexions, and reduce acne scars, pigmentation, and fine lines. As the spicules dissolve, they continue to work beneath the surface, accelerating skin renewal for a smoother, clearer, and more radiant appearance.

- Refines pores and smooths texture;
- Brightens dull, uneven skin tone;
- Reduces acne scars and pigmentation;
- Boosts collagen and cell renewal; and
- Minimal downtime, no bleeding.

Skin Indications: dull or textured skin, acne scars, pigmentation, fine lines, enlarged pores, and uneven tone. It can be used on the face, neck, and décolletage to restore a fresh, youthful glow.

KOREAN TREATMENTS

KOREAN BRIGHTENING MESOTHERAPY AND MICRONEEDLING

₩367,500

The Korean Brightening Mesotherapy and Microneedling treatment is an advanced skin rejuvenation procedure designed to brighten, even out skin tone, and boost radiance. It combines the precision of microneedling with the infusion of powerful brightening serums through mesotherapy techniques, enhancing product absorption and stimulating collagen production at the same time.

The treatment works to fade pigmentation, smooth skin texture, reduce dullness, and promote a clear, luminous complexion. It also strengthens the skin barrier and stimulates cellular regeneration for long-lasting glow and firmness.

- Brightens and evens skin tone;
- Reduces pigmentation and dullness;
- Stimulates collagen and cell renewal; and
- Minimal downtime with visible results.

This treatment contains Glutathione to brighten and detoxify the skin, Tranexamic Acid to target hyperpigmentation, Vitamin C to boost radiance, Niacinamide to even out tone and refine pores, Hyaluronic Acid to deeply hydrate and plump, and Peptides with Growth Factors to stimulate collagen and skin repair.

Skin Indications: Ideal for dull skin, uneven tone, pigmentation, melasma, post-inflammatory hyperpigmentation, enlarged pores, and early signs of aging. It can be performed on the face, neck, décolletage, and other targeted areas for a luminous, even glow.

KOREAN TREATMENTS

KOREAN SALMON DNA MESOTHERAPY AND MICRONEEDLING

₦439,898

A highly restorative skin rejuvenation treatment that uses purified Korean Salmon DNA to repair, hydrate and strengthen the skin at a cellular level. Combined with targeted mesotherapy infusion and advanced microneedling, this treatment delivers potent skin-healing factors deep into the dermal layer to stimulate collagen production and accelerate tissue repair.

Clients experience improved skin texture, brighter tone, enhanced elasticity and a visible reduction in fine lines. Salmon DNA is especially effective for repairing damaged skin, supporting barrier function and promoting long lasting radiance. LED light therapy may be added to maximise healing, reduce inflammation and enhance overall treatment outcomes.

Skin Indications: *Acne scars and uneven texture, Fine lines and early signs of ageing, Dehydrated, dull or stressed skin, Hyperpigmentation and uneven skin tone, Enlarged pores.*

KOREAN SALMON DNA MESOTHERAPY AND PRP MICRONEEDLING

₦733,950

An advanced regenerative treatment that combines the powerful healing properties of Korean Salmon DNA (PN/PNN) with the natural growth factors found in PRP (Platelet Rich Plasma). This dual-action therapy works to deeply repair, hydrate and rejuvenate the skin from within.

Using mesotherapy infusion followed by precision microneedling, both PRP and Salmon DNA are delivered into the dermal layer to stimulate collagen and elastin production, enhance cellular turnover and accelerate overall skin renewal. The synergy of these two biologic treatments makes the skin firmer, brighter and more resilient with each session.

Skin Indication: *Ideal for acne scars, fine lines, dull or dehydrated skin, uneven tone, enlarged pores and clients seeking deeper skin regeneration.*

KOREAN TREATMENTS

SALMON DNA UNDER EYE BRIGHTENING AND REJUVENATING MESOTHERAPY

₩428,326.5

The Salmon DNA Under Eye Brightening & Rejuvenating Mesotherapy treatment is a gentle yet powerful procedure designed to revitalize tired under eyes, improve dark circles, and restore hydration and elasticity. Using polynucleotides derived from salmon DNA, this treatment stimulates cellular repair, boosts collagen production, and enhances microcirculation in the delicate under-eye area.

During the procedure, the brightening serum is delivered through mesotherapy injections, allowing active ingredients to penetrate deeply and work from within. The result is smoother, brighter, and more refreshed under eyes with a naturally rejuvenated appearance.

- Brightens dark circles and evens skin tone
- Improves hydration and elasticity
- Reduces tired, hollow appearance

This treatment contains Salmon DNA for repair, hyaluronic acid for hydration, niacinamide for brightening, and peptides with antioxidants for protection and strength.

Skin Indications: *Dark circles, early signs of aging, puffiness, and loss of firmness under the eyes.*

REJURAN TONER-BOOSTER MICRO-NEEDLING & MESOTHERAPY

₩540,225

The Rejuran Toner-Booster Microneedling & Mesotherapy treatment is an advanced skin rejuvenation therapy that uses polynucleotides (PN) derived from salmon DNA to repair, restore, and hydrate the skin from within. This booster strengthens the skin barrier, improves elasticity, and enhances the overall glow and texture of the skin.

During the procedure, Rejuran is delivered into the skin through microneedling and mesotherapy, allowing powerful regenerative ingredients to penetrate deeply. This stimulates collagen and elastin production, improves skin tone, and promotes natural healing and repair.

- Boosts collagen and elastin production
- Improves tone, texture, and hydration
- Improves texture, and glow; and
- Stimulates collagen & elastin production.

This treatment contains polynucleotides (PN) for skin regeneration, hyaluronic acid for deep hydration and plumping, niacinamide to brighten and even tone, and antioxidants to protect the skin from damage

Skin Indications: *Ideal for dull, dehydrated skin, uneven tone and texture, fine lines, early aging, enlarged pores, and weakened skin barrier.*

KOREAN TREATMENTS

KOREAN EXOSOME FACIAL

₩376,740

A next-generation rejuvenating facial that delivers powerful Korean exosomes deep into the skin to boost repair, enhance glow, and improve overall skin health. This treatment supports collagen production, evens skin tone, and accelerates healing for a smoother, brighter, and more youthful complexion.

This treatment can be combined with Hydra-dermabrasion or LED therapy for enhanced results.

Skin Indications: Ideal for dull skin, acne-prone skin, uneven texture, enlarged pores, and post-procedure recovery.

KOREAN EXOSOME MESOTHERAPY & MICRONEEDLING

₩502,740

A high-performance skin regeneration treatment that combines targeted mesotherapy infusion with advanced microneedling to deliver potent Korean exosomes directly into the dermal layer. Exosomes accelerate cellular repair, boost collagen and elastin production, refine texture, and restore a healthy, youthful glow. This treatment is ideal for acne scars, enlarged pores, fine lines, pigmentation, dullness, and overall skin rejuvenation.

For enhanced outcomes, this treatment can be paired with LED light therapy.

Skin Indications: Ideal for dull skin, acne-prone skin, uneven texture, enlarged pores, and post-procedure recovery.

KOREAN EXOSOME AND PRP MESOTHERAPY AND MICRONEEDLING

₩880,740

Experience one of the most advanced skin regeneration treatments available. This powerful combination therapy merges PRP (Platelet Rich Plasma), rich in natural growth factors, with next generation Korean exosomes to deeply repair, rejuvenate and transform the skin from within.

Using a blend of mesotherapy infusion and precision microneedling, this treatment delivers both PRP and exosomes directly into the dermal layer where they stimulate collagen and elastin production, enhance cellular turnover and accelerate the skin's natural healing processes.

Clients can expect:

- Smoother, more refined skin texture;
- Significant improvement in acne scars and pigmentation;
- Reduction in fine lines and early signs of ageing;
- Brighter, more even skin tone;
- Strengthened skin barrier and improved elasticity; and
- Faster healing and enhanced overall skin vitality.

Skin Indications: Ideal for dull or tired skin, scarring, enlarged pores, loss of firmness and uneven complexion.

KOREAN TREATMENTS

KOREAN GLASS SKIN MAGIC FACIAL

₩1,048,950

The Korean Glass Skin Facial is an advanced multi-step treatment designed to deliver radiant, smooth, and luminous “glass-like” skin. This protocol combines five powerful procedures that work synergistically to restore, repair, and enhance the complexion — targeting dullness, uneven texture, fine lines, pigmentation, and loss of firmness.

The treatment includes:

- Dermaplaning to exfoliate dead skin cells and smooth the surface.
- RF Microneedling to stimulate collagen and tighten the skin.
- Mesotherapy to infuse brightening and hydrating serums.
- HIFU to lift and firm deeper layers of the skin.
- Finishing glow boosters to lock in hydration and radiance.

Benefits:

- Restores skin brightness and clarity;
- Improves texture and elasticity;
- Reduces fine lines and pigmentation;
- Lifts and firms the skin; and
- Creates a smooth, glowing “glass skin” finish.

This treatment contains Salmon DNA for repair, hyaluronic acid for hydration, niacinamide for brightening, and peptides with antioxidants for protection and strength.

Skin Indications: Dark circles, early signs of aging, puffiness, and loss of firmness under the eyes.

OTHER TREATMENTS

KELOID REMOVAL

Keloid removal is a targeted treatment designed to flatten and soften raised scars caused by excessive collagen production. Unlike regular scars, keloids can grow beyond the original wound and often require medical intervention for effective improvement.

At Skye Aesthetics, the primary treatment option is **Tramcinolone** injection therapy, a corticosteroid that reduces inflammation, shrinks excess scar tissue, and flattens the keloid over time. The treatment is safe, minimally invasive, and well-suited for darker skin tones.

- Flattens and softens raised scars;
- Reduces redness, pain, and itchiness;
- Improves skin texture and appearance;
- Minimal downtime; and
- Safe for most skin types.

Skin Indications: *Ideal for keloids on the ears, chest, jawline, neck, shoulders, and back.*
Multiple sessions may be required for optimal results and long-term control.

OTHER TREATMENTS

ELECTRODESSICATION SKIN TAG REMOVAL

Electrodesiccation is a quick and effective non-surgical treatment used to safely remove skin tags. It works by delivering a controlled electrical current through a fine tip or probe to dehydrate and destroy the targeted skin tissue. The treated skin tag dries up and falls off naturally, leaving behind smoother skin.

This procedure is minimally invasive, performed in a clinical setting, and typically requires little to no downtime. Results are usually visible after a single session.

- Precise and effective removal;
- Minimal discomfort;
- Quick treatment time;
- Little to no scarring; and
- Suitable for most skin types.

Skin Indications: ideal for removing benign skin tags on areas such as the neck, underarms, chest, groin, or face.

OTHER TREATMENTS

COLON HYDROTHERAPY

₦107,350

Colon Hydrotherapy, also known as colon cleansing, is a gentle, non-invasive treatment that involves flushing the colon with warm, filtered water to remove built-up waste, toxins, and gas. This process helps to detoxify the digestive system, improve gut health, and promote overall wellness. During the treatment, a small tube is inserted into the rectum, and warm water is gently introduced into the colon. The water loosens waste material, which is then flushed out through a closed system. The procedure is safe, hygienic, and performed in a relaxing, private setting.

- Promotes detoxification and gut health;
- Relieves bloating and constipation;
- Improves digestion and energy levels;
- Supports a flatter abdomen and better nutrient absorption; and
- Encourages a sense of lightness and well-being.

Multiple sessions may be recommended for optimal results.

Indications: Suitable for individuals experiencing bloating, sluggish digestion, constipation, skin dullness, fatigue, or those seeking a natural detox.

OTHER TREATMENTS

INJECTION FOR ACNE CYST REDUCTION

₦45,087

An Acne Cyst injection is a fast and effective treatment for reducing painful, inflamed cystic breakouts. At Skye Aesthetics, we use triamcinolone, a corticosteroid that works by reducing inflammation, flattening the cyst, and speeding up healing, often within 24 to 72 hours.

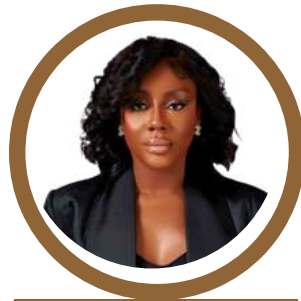

This quick in-clinic procedure is ideal for stubborn, deep acne cysts that don't respond well to topical treatments and helps prevent scarring and post-inflammatory marks.

- Rapid reduction of pain, swelling, and inflammation;
- Visible flattening of the cyst within days;
- Helps prevent scarring and pigmentation;
- No downtime, quick and safe procedure; and
- Ideal for stubborn or event-time breakouts.

Skin Indications: Suitable for cystic acne on the face, jawline, chest, and back.

SKINCARE TIPS

Do not use retinol 24–48 hours before your appointment.

Stick to your recommended skincare routine consistently.

If breakout-prone, get an extraction facial every 4–6 weeks.

Avoid touching your face.

Drink plenty of water daily.

Limit manual exfoliation to 2–3 times weekly.

Add gentle AHA/BHA toning to your routine as advised.

Clean makeup brushes frequently to avoid breakouts.

Do not layer salicylic acid toner with retinol or hydroquinone.

Wear sunscreen daily and reapply every 2–3 hours.

Be patient, visible results are typically seen in 4–6 months.
